T-SKY & MECHA

Our exclusive brand of merchandise is T-SKY® which we believe to be the highest quality and most valuable merchandise including 1.4G consumer fireworks, 1.4G proline and 1.3G professional fireworks with the greatest customer satisfaction of any product.

In year 2024, just right after our 10th anniversary, we brought up our new premium 1.4G brand—MECHA™, which is born to create fireworks of the future world, to bring More Creative and More exciting experience for the new generations.

Factory & Warehouse

Over the past decade, we have established our own manufacturing bases in Hunan and Jiangxi Provinces, the heartland of China's fireworks industry. The factory in Shangli, Jiangxi, specializes in producing 1.4G consumer fireworks, while the factory in Liuyang, Hunan, focuses on large-scale 1.3G display fireworks.

At Dayao Town in Liuyang, Hunan—a major logistics hub for the fireworks industry—we have invested in building our dedicated warehousing facility. Spanning over 20,000 square meters, this facility significantly enhances our storage capacity.

This strategic investment allows us to pre-stock products for our clients, mitigating delivery risks associated with the industry's increasingly tight production schedules. We warmly invite partners to visit this key operational asset.

These dedicated facilities ensure consistent product quality and reliable delivery schedules, while also serving as hubs for our ongoing technological innovation. We warmly invite prospective partners to visit our factories and explore opportunities for collaboration.
